CONTENTS OF *AGRICULTURAL WATER MANAGEMENT*, VOLUME 13

VOL. 13 No. 1 APRIL 1988

Desalinisation of recently accreted coastal land in the eastern part of the Bay of Bengal, Bangladesh
L.K. Smedema and A. Jenkins (Arnhem, The Netherlands) 1
An optimization technique for estimating infiltration characteristics in border irrigation
B.L. Maheshwari, A.K. Turner, T.A. McMahon (Parkville, Vic., Australia) and B.J. Campbell (Kerang, Vic., Australia) 13
A simple dated water-production function for use in irrigated agriculture
N.H. Rao, P.B.S. Sarma and S. Chander (New Delhi, India) 25
Optimum sorghum planting dates in western Sudan by simulated water budgets
M.A. Omer, K.E. Saxton and D.L. Bassett (Pullman, WA, U.S.A.) 33
Rainfall irregularity and sowing strategies in Southern Mozambique
J.M. Schouwenaars (Wageningen, The Netherlands) 43
Evapotranspiration, pan evaporation and soil water relationships for wheat (*Triticum aestivum*)
P. Singh (Hisar, India) and H. Wolkewitz (Berlin, Federal Republic of Germany) 65
An economic evaluation of sugar cane production under different water supply systems in Thailand
W.J. Brzesowsky and A.E.M. van Vilsteren (Arnhem, The Netherlands) 83
A flow-proportional water sampler for use in conjunction with a V-notch weir in small catchment studies
S.P. Cuttle and D.J. Mason (Aberystwyth, Great Britain) 93

Book review
Automated farm surface irrigation systems worldwide 101

VOL. 13 Nos. 2–4 JUNE 1988

Special Issue

Water Management in Agricultural Development

Proceedings of the International Symposium, 7–11 April 1986, Athens, Greece

Editorial
G. Tsakiris (Athens, Greece) 111
Improving irrigation management by modelling the irrigation schedule
P. Van Aelst (Leuven, Belgium), R.A. Ragab (Alexandria, Egypt), J. Feyen and D. Raes (Leuven, Belgium) 113

Soil-water dynamics and optimum operating regime in trickle-irrigated fields
G.S. Ghali and Z.J. Svehlik (Southampton, Great Britain) 127
Non-dimensional diagrams for unsteady drainage problems with or without recharge
D. Karamouzis, T. Zissis and G. Terzidis (Thessaloniki, Greece) 145
A dissipative finite element model for discontinuous unsteady flow in open channel
L. Anastasiadou-Partheniou and G. Terzidis (Thessaloniki, Greece) 157
Step-ahead state forecasting using streamflow observations
G. Cecconi (Venezia, Italy) 169
Water management plan for the Al-Hassa Irrigation and Drainage Project in Saudi Arabia
W. Abderrahman (Dhahran, Saudi Arabia) 185
On the modelling of the infiltration process in arid zones for irrigation project purposes with the aid of the 'Système Hydrologique Européen' (SHE)
M. Erlich (Grenoble, France) 195
Conjunctive use of water for irrigation, municipal and industrial water supply in Istra, Yugoslavia
Z. Kos (Rijeka, Yugoslavia) 211
Effect of different parameters on entrance resistance of corrugated plastic drains
E. Tiligadas (Thessaloniki, Greece) 225
Modelling and simulation in hydrologic systems related to agricultural development: state of the art
R.A. Feddes (Wageningen, The Netherlands) 235
Stochastic approach of soil water flow through the use of scaling factors: measurement and simulation
G. Vachaud, M. Vauclin and P. Balabanis (St. Martin D'Hères, France) 249
Micro and large-scale parameters evaluation of evaporation from a lake
C. Jacovides, G. Papaioannou and P. Kerkides (Athens, Greece) 263
Water conveyance in channels with semicircular cross sections
J.D. Demetriou and A.I. Nanou-Giannarou (Athens, Greece) 273
Optimizing the uniformity of irrigation and fertilization
I. Varlev (Sofia, Bulgaria) 285
Variation in evapotranspiration and capillary rise with changing soil profile characteristics
J.W. Hopmans and C.H. van Immerzeel (Wageningen, The Netherlands) 297
Characteristics of mole drainage as a major ameliorative technique for surface-waterlogged soils
N. Shopsky, E. Doneva and I. Nikolov (Sofia, Buglaria) 307
Evaluation of various computational schemes in calculating unsaturated hydraulic conductivity
A. Poulovassilis, M. Polychronides and P. Kerkides (Athens, Greece) 317
Developments and possibilities of optimization models
M. Benedini (Rome, Italy) 329
Irrigation project appraisal: outline of principles
J.R. Rydzewski (Southampton, Great Britain) 359
Details of the flow and bottom pressure downstream of a thin-plate weir
S. Papoutsi-Psychoudaki and P. Sutton (Cambridge, Great Britain) 369
Role of hydrological forecasts and river flow modelling in rational agricultural water management in the perspective of a climate change – a case study of the Rivers Upper Nile and Niger
J. Nemec (Geneva, Switzerland) 383
Daily potential evapotranspiration modelling
G. Tsakiris (Athens, Greece) 393

Modeling derived demand for irrigation water
J. Kindler (Warsaw, Poland) 403

Technical Note: A dielectric tensiometer
M.A. Hilhorst (Wageningen, The Netherlands) and J.J. de Jong (Amsterdam, The Netherlands) 411
